

Giant Christmas Trees

Deluxe Mountain Pine Trees are made with longer branches and separately welded limbs. The Deluxe Mountain Pine uses 4 foot and 6 foot alternating length branches to give an extremely realistic looking tree, with naturally larger spaces for oversized ornamentation. Each size is priced with two different base diameters to fit your unique space. Exterior use cost is also included for these larger than life size trees.

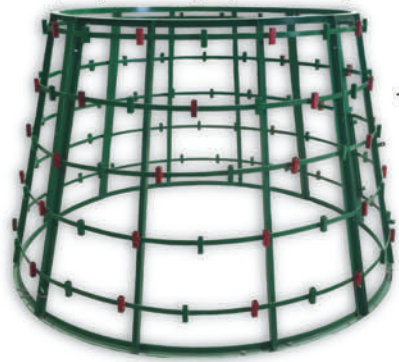

Mountain Pine Branches alternate lengths for true life-like depth and realism.

We have giant trees engineered up to 145' tall!

Color Coded receptacles on tree frame make placing the alternating length branches easy!

Tree Frame sections are 5' tall.

Neiman Marcus Flagship - San Francisco, CA

<u>SIZE</u>	<u>BASE</u>	<u>BRANCH COUNT</u>	<u>PLAIN COST</u>	<u>LED COST</u>
50'	22'	505	\$116,150	\$146,450
50'	19.5'	461	\$106,030	\$133,690

70'	30'	1370	\$321,915	\$404,115
70'	26'	1113	\$261,555	\$328,335
80'	34'	1988	\$436,720	\$556,000
80'	30'	1630	\$358,600	\$456,400

This style tree was designed years ago for the Neiman Marcus Group, who wanted a tree designed after the classic live tree that City of Paris, San Francisco would install in the Rotunda every holiday season. Barrango has been installing our Deluxe Mountain Pine Tree in the Neiman Marcus Rotunda every year since 1978.
