## Green Foliage

Barrango greenery is some of the most rich and lush you will find available. We use a thicker than industry average green UV resistant PVC for our foliage. Our in-house machinery cuts, winds and spins the PVC into long strands which are then fashioned into Christmas trees, wreaths, sprays or garlands. We custom manufacture different styles of foliage: **Mountain Pine**, our classic most natural look; **Sierra Pine**, our tight woven topiary style; **Ponderosa Pine**, a long needle pine style foliage; and our custom **Canadian Pine**, used mainly for our spectacular Light Show Feature Trees.

All of Barrango Giant Christmas trees are made with a solid steel framework with individual branches that hook onto the frame and come straight out. Using our Mountain Pine branches, we can create a truly realistic looking tree with alternating branch lengths, creating natural looking spaces throughout the tree for larger ornamentation. Or with our Canadian Pine branches, we create a uniform branch that helps to evenly spread out all the RGB pixel lights throughout the tree, generating a fully motion graphics capable lightshow set up.

Don't forget that every tree, garland, spray, or wreath as well as all our décor are made in the USA. Our staff will make sure your items are packaged and delivered safe and secure so everything arrives intact. We'll be with you every step of the way to make sure that installation and breakdown of your display goes smoothly.

Remember that Barrango can customize your décor and display to virtually any vision you might have. Our options are expansive but if you don't see what you're looking for please call us to discuss. Our goal is to give our customers the very best experience as well as a visually memorable display that resonates with your customer.

## Giant Christmas Trees

**Mountain Pine Christmas Trees** are made with a solid steel framework, in 5' tall sections, and many individual branches. We do not create flat-looking panel trees. Color coded branches on the pole help create the perfect taper to the tree, while the branches that go onto the cone framework sections alternate lengths and are also color coded for easy installation.

Mountain Pine Branches alternate lengths for true life-like depth and realism.

We have giant trees engineered up to 145' tall!

Color Coded receptacles on frame make placing the alternating length branches easy!

Neiman Marcus - San Francisco, CA

Macy's - San Francisco, CA

## Giant Christmas Trees

Giant **Long Needle Pine Trees** feature the alternating branch lengths like Mountain Pine, but we apply a thicker bottle brush style greenery to the branch armature to give it an even fuller realistic feel. Long Needle Pine is available plain or with 'exploded tips' to give it a flocked or frosted look.

# Barrango

## Natural Manzanita

Barrango is thrilled to be an exclusive designer incorporating Manzanita in commercial décor. Manzanita is a wild shrub that grows heavily in high altitudes in Northern California. We harvest ours from the Sierra Nevada Mountains at a location actually called Barrango Lane! Even though Manzanita is strong, its flexibility makes the branches a perfect medium for décor. Branches are attached to steel wire frames welded by one of our artisans. This allows the Manzanita to be molded into virtually any shape and creates the Barrango signature look. Although we can paint Manzanita in a variety of colors including gold, silver or copper, most clients choose white to evoke a Winter Wonderland feel to their display.

Ahead you'll see the many ways we've fashioned Manzanita into eye-catching, artistic décor. We've created a selection of trees, garland, wreaths, snow balls, stars and even gazebos or castles. We also can create swans in multiple sizes and with a water line base so they can actually float in your wet display. Most popular is our deer which can be posed prancing, jumping or standing and be made up to 25 feet tall!

Don't forget that every tree, wreath, deer and snow ball as well as all décor are 100% made in the USA. Our staff will make sure your items are packaged and delivered safe and secure so everything arrives intact. We'll be with you every step of the way to make sure that installation and breakdown of your display goes smoothly.

Remember that Barrango can customize your décor and display to virtually any vision you might have. Our options are expansive but if you don't see what you're looking for please call us to discuss. Our goal is to give our customers the very best experience as well as a visually memorable display that resonates with your customer.

Barrango's selection of giant oversized ornaments is amazingly vast and includes nearly anything you can dream up. From the classic ball ornaments to shining stars and beautiful bells, we have the perfect décor for your tree, wreath, and garland or any element to your display. All ornaments come glittered in any of our 11 available colors including red, green, lime green, blue, sky blue, purple, magenta, copper, bronze, silver or gold. A metallic leaf finish is available in bronze, silver and gold. A painted finish in any color of your choosing is also available. The basic glitter finish includes the glitter in the resin as opposed to a simple top coat. You won't worry about the glitter flaking off on these items. All ornaments are durable for high traffic indoor or outdoor displays. The ornaments and colors will remain vibrant all season long!

One of our more popular options is the ornament ball stacks. These can be displayed with 4 ornaments stacked or a sizeable 10 stack! Both make a stunning impression for your display and a picturesque background.

Many of the ornaments offer the option to include your logo or holiday message! This is the perfect way to brand your business and offer a seasonal greeting to your customers. (Additional costs for logos and messaging will apply.)

Don't forget that every ornament is 100% made in the USA. Our staff will make sure your items are packaged and delivered safe and secure so everything arrives intact. We'll be with you every step of the way to make sure that installation and breakdown of your display goes smoothly.

Remember that Barrango can customize your décor and display to virtually any vision you might have. Our options are expansive but if you don't see what you're looking for please call us to discuss. ## Fiberglass Items

There are no limits to our imagination at Barrango. That becomes clear as you see the many options we have for decorative fiberglass display props. From vintage toys to giant Nutcrackers and Toy Soldiers, we manufacture the items you need to bring the spirit of the season to your center or venue.

How about creating your own Toyland filled with classic toy blocks, giant gift wrapped boxes with bows or a classic giant teddy bear? Or how about a Candyland theme by adding a candy cane tree filled with gum drops or ornaments dangling from every branch? This tree can double as an Easter Egg tree during Springtime giving you multi-seasonal use. You can also select from bears and elves that are available in animated forms to add interest in your display. And we have everything to set the perfect stage for Santa Claus including beautiful gold thrones or a life size sleigh.

Don't forget that every piece is 100% made in the USA. Our staff will make sure your items are packaged and delivered safe and secure so everything arrives intact. We'll be with you every step of the way to make sure that installation and breakdown of your display goes smoothly.

Remember that Barrango can customize your décor and display to virtually any vision you might have. Our options are expansive but if you don't see what you're looking for please call us to discuss. # Installation Tips from Barrango

We know that holidays are a hectic time in your business, and we want your decor installation to go as smoothly as possible! The following tips will hopefully ensure that you won't tear your hair out in the upcoming stressful weeks ahead. Good Luck and Happy Holidays! If we may be of any assistance to you, please do not hesitate to call us at (650) 871-1931 or email us at [info@barrango.com](mailto:info@barrango.com).

## Receiving your Shipment

As merchandise is removed from the delivery truck, check each piece against your packing list. (A packing list will also be emailed to you when the shipment leaves the factory.)

If you notice any obvious damage to any boxes, immediately open that box and check to see that the merchandise inside is not damaged. Any obvious damage must be noted on the carrier's delivery receipt. Damage discovered after unpacking must be reported to the carrier in writing within ten (10) days of receipt of merchandise. Claims for errors or shortages must be made to Barrango in writing immediately.

Taking the time to check off your shipment when it arrives will give you the opportunity to organize it as it is removed from the truck and make removal to an organized storage or staging area much easier.

## Maximize Your On-Site Supervisor

If On-Site Supervision is included in your contract, we would like to clarify what that entails. On-Site Supervision is defined as a Barrango representative used for the sole purpose of giving on-site directions and instructions to your personnel used as labor to do the actual unpacking and installation of the decorations. Because your personnel work for you, we do require that you are also present while our supervisor is on-site.

Have ALL boxes out and ready to go, BEFORE the supervisor arrives. He or She has only a limited amount of time with you to ensure that your decor achieves the maximum impact. Don't waste this limited time by having to move boxes to and from.

## Be Sure You Have Wheels...

Having plenty of flat hand trucks, dollies and/or carts available to transport the decor is vital! Also, if you are installing overheads, you will most likely need an electric lift.

Try to think ahead about the merchandise that you will need to move to various areas. The more equipment you have available, the quicker the process will be.

When your merchandise is delivered, categorize it by unit type as it comes off the truck and is placed in your storage area. For instance, all of garland "Unit A" items should be stored in one area, all of the props for the Santa Area in another, etc...

Taking the time to sort it properly will allow you to orchestrate a speedy installation.

## Install Your Anchor Points

Install your anchor point hardware for your overhead units as soon as you receive your installation drawings. DO NOT try to install your anchor points at the same time as you are installing the decor. It will take too long if you try to do both at once. Some Centers actually install their hardware along with the necessary power requirements and extension cords which can be discreetly taped into place, or permanently installed. This pre-installation will make you decor install go very smoothly.

## The Tool Box...

Put together a small tool box to be used by the installation crew. You can lose hours going back and forth for small items such as hammers, screwdrivers, wire, etc...

We recommend you include the following items:

- Screwdrivers
- Wire & Wire Cutters
- Wrenches
- Scissors
- Pliers
- Hammers
- Nails
- Eye Bolts
- Gloves for Workers
- Duct Tape / Electrical Tape
- Extra Extension Cords

If installing a 20' or taller tree, you will also need:

- Ratchet Wrenches
- Safety Lines
- Hard Hats for Each Worker Climbing on the Tree Frame

## Extension Cords...

Purchase your extension cords and outlet boxes IN ADVANCE of the installation! Don't wait until the night of the installation to figure out what you will need.

## Box Runs

As the installation is in progress, have one crew assigned to do 'box runs'. Their job is to pick up all of the empty boxes and wrapping materials and place them back in your storage area by category as the decor is going up. They should make sure that the box is completely empty, and that no cables etc. has been left behind in the wrapping.

## Let It Snow! Let It Snow! Let It Snow!

Snow Blankets look best when it is made to look like snow drifts. Add a thick coating of your granulated scatter snow flakes over the blankets. We suggest that you make a 'scoop' out of a piece of cardboard and simply throw shovels of snow onto the blankets for a realistic appearance. If you choose, you may scatter additional iridescent snow flakes on top of the granulated 'finishing' snow for an added sparkle.

If 'snowing' an animated scene, be sure to keep 'snow' away from motors and other moving parts.

## A Note about 'FLUFFING'

Now, a few words about "fluffing". Nobody really likes to fluff, but taking a few minutes with each and every garland, wreath or tree limb can truly make the difference in presenting an absolutely spectacular program. Oftentimes, the tree or garland can be somewhat matted during shipping. We recommend that you have your installers give each piece a little bit of attention.

The greenery is made on wire, which is very flexible. Straighten up the branches and twist every other one around so that it faces the opposite direction of the one above it. For trees larger than 10 feet tall, the removable branch limbs should almost resemble a small tree, with some tips pointing up and some pointing down.

The varying levels of branches will aid in the trees realistic appearance and will also help to hide the pole and electrical outlets. Be sure that your 'fluffers' pay attention to every single branch for the best results!

## Happy Holidays to You!

The craftsmen, artists and staff at Barrango very much appreciate your business and hope that you will be pleased with your new custom decor program.

We value your patronage and look forward to serving you for many years to come.
